

Climate Alliance Digital Days

6-9 October 2020

#CADigitalDays

LOCAL SOLUTIONS TOWARDS A GREEN RECOVERY

INTERVIEWS

with 17 cities

targets are crucial!

action!

money

Paris-agreement = new goal!

need to be digestible

breaking down goals to smaller milestones

municipalities can't influence all emissions

net zero

1990 Manifesto of European Cities on an Alliance with the Amazonian Indian Peoples

1992 formal foundation

1997 Kyoto 1st status report

2000 Bolzano Declaration

2006 reformulated target

2007 global awareness to Climate Change

2009 Covenant of mayors → importance of cities

2020 Now!

TARGETS AT CLIMATE ALLIANCE

-10% every 5 years

CHARTA

- different approaches
- what does net zero mean?

POSSIBLE NEXT STEPS

European level

national particularities

Let's do it!

How?

communities of practice & working groups

policy instruments

exchange about how to REACH goals

methods & support

accurate data

monitoring of targets

Support with calculation

compensation

DISCUSSION

Do you agree with CA's conclusions or would you like to add something?

Which role should CA play in the further process?

Our city has more ambitious goals already!

fridays for future

citizens

not only reduce energy-related emissions but also other emissions

What about qualitative goals? protect rainforest!

CA needs to set new goals

NET ZERO

60% reduction till 2030

1.5°C

100% renewables

Compensation

Will this lead to change in behavior?

sustainability goals

INPUT TÜBINGEN

CA member since 1993

no political mitigation target

2007 -10% CO₂ → 2010

new mayor

European Energy Award

Evaluation

constant reduction since then

renewable energy

new Policy goal: 2030 net zero in energy induced emissions

university city

INPUT IFEU

local action → impact to CO₂-level → national level

municipalities

climate manager

ACTION

IMPACT?
